P1	Making sketch for the prototype build plan	2026-09-30	AC

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make one, 1,020 mm long, ends square.

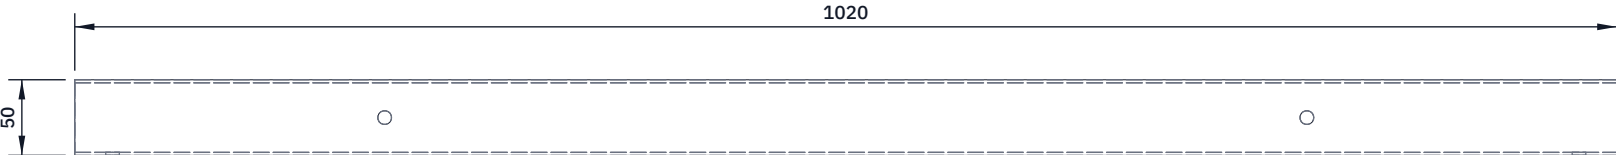

Front face: one 11 mm rivet nut hole 25 mm from each end, 18.5 mm below the top face (cleats).

Top face: two 11 mm rivet nut holes 205 and 815 mm from the left end, on the centre line (L-feet).

Fit: square across between the purlins' inner faces, its front face 1,685 mm behind the front beam's inner face (plan), level.

The cloth's notch edge laces round it.

Check: it drops between the purlins with no more than 1 mm gap.
